PROJECTS

1.DISCUSS-QUESTIONS-WEB-PROJECT
Discuss Question Project is a web-based discussion platform built using PHP for backend logic, Bootstrap for frontend design and Canva for logo design. This project allows users to post questions, share answers, and engage in discussions.

GitHub : https://github.com/parbati-19/Discuss-Questions-web-project.git
Technologies Used : PHP, bootstrap ,CSS, MySql

2.TASK MANAGER SYSTEM
Developed a **Task Management Web Application** using Laravel, enabling users to create, update, delete, and track tasks with due dates and completion status. Implemented user authentication and authorization to ensure secure task management.

Git*Hub : https://github.com/parbati-19/task-manager.git*
Technologies Used: Laravel framework, blade for frontend

3.LARAVEL USER AND PAYMENT MANAGEMENT SYSTEM
CRUD application built for a web application, which helps to manage users and payments. The project uses Laravel as the backend framework, Bootstrap for the UI, and MySQL for the database.

GitHub : https://github.com/parbati-19/Laravel-user-and-payment-management.git
Technologies Used: Laravel framework, blade for frontend
